

DRIVE BANDITS INTO A CORNER

Soldiers with Bristling Guns Surround Captors of Miss Stone.

SHE IS STILL ALIVE

Pitched Battle Seems Imminent When the Contending Forces Meet.

HOPE TO SAVE WOMAN

Vienna, Oct. 11.—Soldiers armed with bristling guns surround the mountain on which Miss Helen Stone the American missionary is held captive by brigands. Proof of Miss Stone's whereabouts was obtained today and simultaneously the troops began a closing in movement designed to rescue the missionary and capture or exterminate the brigands.

What the fate of Miss Stone will be is clearly a matter of conjecture. Hope is high here that her life will be spared. But it is considered to hang by a narrow thread.

THE BRIGANDS HAVE MOVED

Whereabouts of Miss Stone Has Been Definitely Ascertained

Sofia, Bulgaria, Oct. 11.—According to semi-official intelligence some shepherds informed a Bulgarian official yesterday that the brigands having Miss Stone in custody are now on the heights of Jodoruda, in Turkish territory.

Report Bandits in Mountains.

Constantinople telegram.—The surrounding movement of Turkish and Bulgarian troops on the mountain Gueltepe, on the Turko-Bulgarian frontier, near Dubnitz, has commenced. The presence of Miss Stone and the bandits on the mountain is confirmed. The inhabitants of Dubnitz are supplying the outlaws with food.

English Case Recalled.

London telegram.—With reference to the announcement that the Turkish and Bulgarian troops are surrounding the abductors of Miss Stone, the Globe says that it considers that unless the movement is suspended until she is safe out of the hands of the brigands there will infallibly be a repetition of the tragedy in Greece, during the year 1870, when Lord Muncaster was released in order to negotiate for a ransom of \$25,000. Then, as now, an attempt was made to surround the brigands, with the result that four gentlemen of the party were murdered.

METHODISTS AT WORK IN RIPON; REPORT OF JANESVILLE DISTRICT

Rev. W. W. Stevens Says the Church Needs Bright, Active Young Men, Deeply Pious, for Ministers.

Ripon, Wis., Oct. 11.—Presiding Elder W. W. Stevens of the Janesville district made his report at the opening of the morning session. "My experience in trying to secure supplies has convinced me that there is not an overproduction of preachers of the right sort," said he, "while there is a score of applicants for nearly every vacancy. It is usually difficult to find the one man who is qualified for the work, and will naturally care for the estate of the church. As pastors and presiding elders we should be on the watch for bright, active young men who are deeply pious and know how to deal with men."

"Liberal amounts have been collected during the year for expenditure in charities and church improvements. A \$10,000 church has been built at Lake Mills. About \$2,000 in cash and pledges have been secured for the twentieth century fund, the larger part going to Lawrence university. About 300 conversions have been reported during the year. There are fifty-three Epworth League chapters in the district."

Memorial to McKinley
A conference committee of five, to prepare a memorial resolution on President McKinley's death, was appointed by Bishop Joyce, who offered the prayer at the McKinley funeral. The committee consists of R. C. Harker, E. W. F. Requa, W. A. Hall, William Rollin and R. K. Mannton.

Opposes Brass Band in Religion
Wisconsin Methodists in session at Ripon today listened to a criticism by Presiding Elder D. C. John of the Milwaukee district of the various attempts recently made to introduce Salvation army methods into the churches of the state. The brass band style of evangelistic work came

Straus, formerly minister to Turkey, thinks that the abduction of Miss Stone should not be charged to the sultan or his subjects. Neither is he at all sure that the Bulgarian government is in any way implicated. He prefers to think that it was the work of irresponsible Bulgarian brigands who were moved thereto solely by a desire to extract ransom, and who had no political end of any kind to serve by their nefarious actions.

Boston Avoids Publicity.

Boston telegram.—It has been decided to give out no more statements of the condition of the fund for ransoming Miss Stone.

The decision not to give out a list of the contributors each day is in line with the wish of the American board to avoid publicity as much as possible. The board feels that the brigands are kept pretty well informed of the affairs in America, and thinks that the less they find out just now the better it will be for Miss Stone.

IN THE MEMORY OF WILLIAM M'KINLEY

Trustees of the Proposed Monument Fund Organize by Naming Officers at Cleveland.

Cleveland, O., Oct. 11.—The trustees recently appointed by President Roosevelt for the National McKinley Monument association, met here today at Senator Hanna's office and organized by electing the following officers:

President, William R. Day, Canton, O.; vice president, M. A. Hanna, Cleveland; treasurer, Myron T. Herrick, Cleveland; secretary, Ryerson Ritchie, Cleveland.

The headquarters of the association will be located at Canton. It is proposed to raise about \$1,500,000 by popular subscription to build a marble memorial at Canton in honor of the late president.

It was also unanimously decided to elect President Roosevelt and the governors of all the states and territories as honorary members of the association.

The trustees indorsed a statement as follows: "The purposes of the association as defined in its certificate of incorporation for the erection and maintenance at Canton, O., of a suitable memorial to the late president and raising the necessary funds for said purposes; and after fully providing therefor, the surplus of such funds, if any, are to be devoted to such memorial as may be provided for the late president at the national capital."

The memorial will be erected at Canton, that city having been his home throughout his public life, and selected by him as his final resting place.

"The memorial is to be in the highest sense, the sincere expression of all the people of the country of their love for President McKinley and of their admiration for the qualities expressed so eminently in his life and deeds."

Explosion in a Mine.

Fairmont, W. Va., Oct. 11.—An explosion occurred in the New England coal mine near here this afternoon with three hundred men in the mine, six are missing and the mine is on fire.

Mr. and Mrs. James Lamb are spending a couple of weeks at the Pan-American exposition at Buffalo.

Lean Sent to Oshkosh

By a unanimous vote the Rev. J. S. Lean of Waukesha was chosen for presiding elder of the Oshkosh district. The term of Andrew S. Porter expires with this conference. Mr. Lean has been in Waukesha for four years, and was prominently mentioned for presiding elder of the Milwaukee district to succeed Dr. John, whose term extends only another year. Mr. Lean came into this conference in 1884 and once served in a Milwaukee church.

Evans Back to Methodism

After having served the Methodist church for nearly forty years and then transferring to the Congregational church, the Rev. Matt Evans, after a two years' experience as a Congregational minister, has returned and is once more knocking for admission to the Wisconsin conference.

PRESIDENT ADAMS HAS RESIGNED; PROF. BIRGE WILL SUCCEED HIM

University Regents Will Meet Tonight and Act Upon the Matter—Continued Ill Health Has Forced Mr. Adams To Retire.

Madison Wis., Oct. 11.—The resignation of President Charles Kendall Adams is in the hands of the board of regents of the university of Wisconsin and will be acted upon by them this evening. The special meeting of the board was called ostensibly to consider bids for the new agricultural college, but the real purpose is to consider President Adams' resignation and the question of a successor. It is understood that the resignation will be accepted, there being no question as to its advisability.

President Adams returned from Europe, where he has been on leave of absence for the past year, much improved in health. In his first speech to the students he expressed the belief that he was going to be equal to the work of the coming year. A severe cold which he took in the first week of the college year, brought on his old trouble and there is no probability of his again taking up active work.

BAPTISTS FINISH WORK AT LA CROSSE

State Convention Will Probably Meet Next Year at Milwaukee—Presbyterians in Session at Hudson.

La Crosse, Wis., Oct. 11.—The remainder of the programme of the State Baptist convention was finished last night and the convention adjourned. It will meet next year at some place to be designated later by a committee appointed for that purpose—probably Milwaukee. The convention was regarded as a complete success, the attendance having been large and the interest great.

The following officers of the B. Y. P. U. were elected last evening: President, D. P. Cheney of Racine; secretary, George W. Nellis, Jr., of La Crosse; treasurer, J. T. Fitchett of Janesville; transportation leader, O. B. Bond of Milwaukee.

Presbyterians at Hudson

Hudson, Wis., Oct. 11.—A report of the work of the Women's Presbyterian Synodical Missionary society was presented by the Rev. J. T. Wilson. The synodical society comprises fifty-eight women's societies, forty-one young people's societies, fifteen bands and Junior societies, making a total of 114 contributing societies. A new society was formed at Ironwood and another at Depere during the year.

The women's societies have contributed \$1,687.36 for the mission work; the Sabbath schools \$98.10, the Christian Endeavor societies \$451.08, making a total of \$2,236.54, which has been forwarded to the women's board.

MANY TOBACCO MEN ASK FOR REBATES

Washington, Oct. 11.—The tobacco manufacturers of the country of which there are a large number in different sections of the northwest, will be interested in the fact that the treasury officials are surprised at the large number of cases for rebate of internal revenue taxes filed under the law of the last congress.

When the reduction was made in the war revenue taxes provision was made for rebate to the manufacturers of tobacco for such stamps as they had already placed upon packages of tobacco. But the most interesting part of the matter is that congress made no provision for funds to pay the rebate on unused stamps, and it will be necessary for congress at the coming session to make an appropriation to cover this sum. More than 40,000 applications for rebate have been filed.

MORMON LEADER IS DEAD.

President Lorenzo Snow Passes Away at Salt Lake.

Salt Lake, Utah, Oct. 11.—Lorenzo Snow, fifth president of the Church of Jesus Christ of Latter Day Saints, better known as the Mormon church, died unexpectedly at his private residence, the historic Beehive House, in the afternoon, after an illness that had been serious only since Wednesday. Several weeks ago President Snow contracted a cold. He was at his desk, however, attending to business as late as Tuesday. Yesterday morning he became alarmingly ill. Last night his physicians were called and remained in constant attendance until death came. President Snow's death is deplored by all classes, for he was regarded as a broad-minded man, who desired the upbuilding of Utah, as well as the progress of the Mormon church. President Snow's death dissolves the first presidency, of which he was the head, his two counselors being Joseph Smith and Rudger Clawson. Until his successor is chosen, which may not be until the annual conference next April, the leadership of the church will devolve upon the council of twelve apostles, of which body Mr. Smith is the recognized head. Unless death should come to him in the meantime, Mr. Smith will be the next president of the church.

Miss Minerva Coon of Edgerton is acting as stenographer at the telephone stockholders' meeting.

FOUR DIE IN A WRECK.

Freight Trains on Chicago Great Western Collide Near Lombard.

Chicago, Oct. 11.—Four persons were reported killed and three were injured in a train wreck on the Chicago Great Western railway near Lombard, Ill., 10 miles from Chicago, at 3 a. m. and on a straight stretch of track. The morning was foggy and it is said that in passing the Lombard station the conductor of the freight train east bound failed to read the signals right. Both engines, it is said, were ditched, and a number of cars heaped up one on top of the other.

The bodies of the four persons killed were placed in the caboose of one of the trains. The track was blocked for hours. The Chicago Great Western tracks at this point are straight for miles between Wheaton and Harlem. H. Klummeier, a passenger on the Chicago & Northwestern railway, which passed the wreck, said that the collision was a bad one.

SAW NO SMOKE IN SANTIAGO HARBOR

Admiral Taylor, Who Commanded the Indiana in the Battle, Tells His Story to Schley Court

Washington, Oct. 11.—An explanation by Lemly served as a prelude to the Schley court today. He admitted yesterday a statement by Commander Marx of the Scorpion which was favorable to Schley. Lemly said yesterday he had not presented the Marx statement to the court because it was unworn. The fact was that Marx had sworn to the truth of the statement. Lemly explained to the court that he was in error in saying that the statement was unworn, but added that it was not such a paper as was usually admitted as evidence.

Admiral Taylor, captain of the Indiana, during the war, was the first witness this morning. He denied that he had been notified of smoke seen in Santiago harbor on the night of July 2 or that he had been warned of an attempt on the part of the Spanish to escape. Nobody on the Indiana saw any smoke, Taylor said. Schley and Evans, according to the testimony were among those who saw the smoke. Rayner in cross examinations has endeavored to show that Schley notified Sampson of the smoke and that word was sent by the Vixen to all the commanders.

BELOIT SHOWS UP WELL.

Still Faint Hope That Merrill Will Be Allowed to Play.

Beloit, Wis., Oct. 11.—The football team was given its last hard practice before the game at Milwaukee tomorrow, and showed up well. While Adkins does not equal Smith at center, he is filling the position with credit and promises to hold his own against Skow. Slater and Kaufman are both playing a strong game at guard and Peffer and Booth make better tackles than Beloit had last year. The team has two fast men at end in Cronk and McRae, while Bunge and Little make speedy and heavy halfbacks. Calland is one of the best quarterbacks Beloit has had, and Smith is doing wonders at fullback.

There is still a faint ray of hope that Merrill may be allowed to play at the last moment. He played fullback on the scrub team last night and was in superb form. Beloit will send 300 rooters with the team tomorrow.

SPARKS FROM THE WIRES

Omaha, Oct. 11.—The report that the Rock Island train was held up last night near Avoca, Ia., is absolutely without foundation.

Berlin, Oct. 11.—The empress is suffering from a bad attack of insomnia due to excessive tea drinking to reduce her weight.

Vienna, Oct. 11.—Aaron Horowitz, a Polish Jew of Galicia claims that he is the heir of the late Bishop Horowitz of San Francisco. The bishop left an estate valued at seven and a half millions. Two lawyers are now enroute to America to push Horowitz's claims.

New York, Oct. 11.—The Liner Graf Waldersee arrived this morning from Hamburg with two French fishermen on board. The men had been picked up many miles off the French coast, having become lost in a small boat. When discovered they had been without food and water for five days.

GOV. LA FOLLETTE TAKES LONG WALK; HE WEIGHS ONLY ABOUT 125 POUNDS

Dr. Fox Says the Governor Is Still Unable To Take Any Solid Food—Will Remain on Farm 10 Days.

Madison, Wis., Oct. 11.—For the first time in four months Governor La Follette yesterday afternoon took nearly an hour's stroll in the open air and stood the fatigue as well as could be expected.

Dr. Phillip Fox, with whom the governor is staying on the former's farm, near the village of Oregon, was in the city a few hours and discussed his patient's condition. He said that he and the governor strolled through the fields yesterday afternoon for about an hour. This, the physician says, was the most vigorous exercise the governor has taken since he has been ill.

Dr. Fox said that the governor was still unable to take any solid food. His nourishment continues to be milk and grano-crackers or Battle Creek bread, a prepared food. He has several times attempted to take solid food, but each time the gastric juices refused to perform their functions, thus giving him a setback and considerably retarding his convalescence. Until he is able to digest solid food he will be unable to return to his official duties.

HILL'S PLANS TO COMBINE ROADS

Great Northern and Northern Pacific To Be Made One Company.

ROAD 17,000 MILES

Capital Stock Will Be Fixed at Five Hundred Million Dollars.

UNDERWOOD AT HEAD

New York, Oct. 11.—Reports that a plan has been arranged for putting the control of the Great Northern and the Northern Pacific railroads in the hands of an independent proprietary company were circulated in Wall street today, and, although lacking official confirmation, were widely discussed as within the range of probability.

The statement came from a usually well informed source that the financiers now in control of these two great railways purposed turning over their holdings of stock to a new company, formed on the lines of the Oregon Transcontinental company, which Henry Villard originated to take the stocks of the old Northern Pacific company and the Oregon Railway and Navigation company.

It is asserted that James J. Hill has practically formulated a plan for the consideration of the owners of the properties concerned. The consolidation will, it is said, be financed by J. P. Morgan & Co., Kuhn, Loeb & Co., the Bank of Commerce, and the National City bank.

F. D. Underwood President.

The new head of the company will be F. D. Underwood, president of the Erie railroad, who for many years was manager of the Baltimore & Ohio, and to whose efforts is due to a great degree the present efficiency of that property. Mr. Underwood is now in St. Paul, where he is going over the details of the plan with Mr. Hill. A full official announcement of the details is expected soon after Mr. Morgan's return from San Francisco.

They are said to be to retire Northern Pacific preferred, as the directors have a right to do after Jan. 10, 1902. The total capitalization of the three companies is as follows: Great Northern Railway—Length, 5,417 miles; capital outstanding, \$125,000,000; bonded debt, \$96,557,454.

Great Northern railway of Canada—Lines owned, 5,025 miles; capital stock, \$75,000,000 preferred and \$80,000,000; bonded debt, \$171,000,000.

Chicago, Burlington and Quincy Railroad—Length, 6,412 miles; capital stock, all owned by Northern Pacific railroad and Great Northern road jointly, \$110,421,500; bonded debt \$148,831,000.

Will Control 17,109 Miles

The total mileage of the new system will therefore be 17,109 miles, while the total capital stock will probably reach \$500,000,000.

Although the anti-consolidation laws of Minnesota, Washington and the intermediate states traversed by these two great trans-Atlantic railways are comprehensive and strict, eminent lawyers have expressed the opinion that there is no legal reason why an independent corporation should not have the custody of the majority of the stock of the two roads. The railways must be operated separately as competing lines, however. Objections to such a merger as is talked of are likely to be raised under the laws of Minnesota at any rate, and the legality of a single ownership for the Great Northern and Northern Pacific would probably have to be determined in the courts.

Smallpox Among the Indians.

Washington telegram.—The Indian bureau officials estimate that the number of cases of smallpox on the reservations through the West is between 100 and 150.

Death of Dent Yates.

Kansas City, Oct. 11.—Dent Yates, for twenty years one of the most prominent business men in this city, is dead at his home here.

Leaf Tobacco Notes.

It is very quiet in tobacco circles just at present throughout this part of the county. Very little tobacco is being shipped out of storage and no trading of any consequence outside of small lots is being made.

The early tobacco is coming out nicely and the damp days of this week helped to bring it in case. The late tobacco is slow about curing and some of it on account of the fear of frosts was put into the sheds green and will never cure out. The farmer that has a good crop of tobacco this year will realize a good price on it. Already local buyers are starting out through the country looking over the crops and getting samples of them.

A representative of the American Tobacco Co. has done some driving through the county of late and has offered good prices for several crops. One farmer reports that he was offered eleven cents right through for his crop, but wanted twelve. At these prices the farmer that has a reasonably good crop will get a big price for it.

Frank S. Baines has lately returned from a visit in the east. While away he paid a visit to Hartford, Conn., and drove out and inspected fields of tobacco grown under a cloth covering. He said that in order for a person to realize how a crop of tobacco looked when growing he must go there and see it.

It is nine feet from the ground up to the cloth covering and the tobacco grows to such a height that the tops touch against the cloth. The yield is immense and the price more than pays the grower for the extra cost of the cloth covering. Nothing but wrapper tobacco is grown in this way, and as high as \$1.50 per pound has been offered for the 1901 crop. The growers are holding out for \$2, and would not sell at \$1.50.

Mr. Baines is firmly convinced that equally as good tobacco can be grown in Wisconsin by this process and intends trying it on a small scale next season. It costs about \$300 an acre to get the covering in shape. Cheese cloth is used and is woven in breadths eight feet in width. Two of these breadths sewn together make a strip sixteen feet wide. A heavy cord is run into the outside edges of these strips and used to fasten them to a heavy wire that runs from section to section of the supporting frame work. Cheese cloth is well adapted for this work as it allows the rains to filter through and protects the tobacco from the burning sun, hail and frost.

The United States government has been fostering this idea of improving the tobacco crop and gives aid to farmers who will take the matter up and give it a thorough trial. It was started as an experiment by the government in Connecticut but now has got beyond the experimental stage and is being adopted by the farmers quite generally in that part of the country. It would be a great help to the farmers of this state especially in the way of protection against frost and hail.

The New York leaf tobacco market for the week ending Oct 5 was strong but the volume of business done is not in proportion either to the actual or prospective wants of the cigar industry. From the internal revenue receipts for the month of September, it appears that the cigar industry is beating at a good rate its phenomenal record of last year. The output in or metropolitan districts in the last month exceeded that of September of last year by fourteen millions, and the net gain of the cigar production in the two New York city districts for the first three months of the current fiscal year, which ended on September 30, was nearly a hundred millions over the same period of last year.

With this ever growing increase the volume of business in our market does not seem to keep pace. Nor

does it with the prospective shortage of supply. The opile sweat in the New England crop turns out to be more serious and extensive than was at first reported. Buyers who made some close investigations estimate the damage at 25 per cent. Self preservation would therefore demand the absorption of any stock of leaf in sight by the factories. The volume of business the past week comprised about 2,000 boxes of New England and Onondaga leaf and old filler stock. The Wisconsin is not in the market as yet.—U. S. Tobacco Journal.

Trade among the leaf men has not been very brisk during the week. Some nice deals have been made but there seems to be a lull. Most of the jobbers are well stocked with tobacco, and some of them advise that they are carrying a larger stock than ever before in the anticipation of good fall demand. Collections are very fair with most of the jobbers. A number of travelling representatives have started on the road, and some of them are still at home sorting their samples, so as to be ready to start in a day or two.

There is nothing new among the cigar manufacturers. Their trade is running along satisfactorily, and goods are moving well. The smoking tobacco factories are all busy.

A ten acre lot of tobacco was raised this season in Chippewa county, something never attempted before and the owner is said to have realized a handsome profit from it, for the reason that the usual crop in the southern part of the state was almost a complete failure on account of the drought.

Mr. Meggett, the owner of this lot of Chippewa tobacco, was in Milwaukee a few days ago and exhibited a photograph of the field which showed that the leaves were large and tall, but whether the quality will be up to the Rock county variety is not known. It is said that a large acreage of tobacco will be planted in Chippewa next year, at least, and those who have investigated the prospects are certain of a good profit if the season is right.

Holland uses more tobacco per capita than any other country in the world, and the United States is second on the list. The following table will be of interest:

Annual consumption per capita (kilograms):	
Holland	33.11
United States	25.60
Great Britain	7.45
Belgium	21.36
Switzerland	21.00
Sweden	10.53
Norway	9.00
Denmark	17.00
Germany	15.40
Austria	17.32
France	10.76
Italy	4.54
Spain	11.80
Russia	6.05

It is not at all certain that the white race has a prior claim even upon the invention of the cigar. In all parts of New Guinea tobacco is cultivated, and in some of the districts the humble pipe contributes nothing to the enjoyment of the weed and is not even known. Dr. MacLay saw natives with crude looking cigars in their mouths who had never seen a white man before and thought he had dropped from the sky. Dr. Finch, who some years later explored the coast for hundreds of miles said the natives of the whole north-east coast of New Guinea, though inveterate smokers, had never heard of a pipe and returned those which he gave them as articles for which they had no use. He said they rolled the partly dried leaves into rude cigars, and, not being blessed with Havana wrappers, tied around their cigars a large green leaf from a tree.

Murdock also has application blanks at the Bower City bank. The next meeting of the tribe will be held on Thursday evening, Oct. 24.

Discovers a Deep Sea Mine.

Port Townsend, Wash., Oct. 11.—The steamer Santa Ana has arrived from Nome, bringing ninety-five passengers and \$100,000 in dust belonging to returning miners. Up to the sailing of the Santa Ana Nome had not been visited with the annual storm, the weather having been fairly good. When she left Nome there were no vessels in the harbor. Captain Strand of the Santa Ana reports having found a deep-sea mine of unusual richness. When he weighed anchor at Nome a considerable quantity of mud was brought out, and some of the miners on board prospecting it, with the result that several small nuggets of gold were found, the largest of which was worth \$1.

Castles for Tramp Cats.

Chicago, Oct. 11.—While the silvering human tramp is plodding his weary way from Chicago toward more hospitable climes this winter, the vagrant cat and the mendicant dog are to sleep on beds of straw and subsist on savory foods. It all came about at a meeting of the Chicago Cat club. Forty members assembled at the residence of Mrs. Leland Norton, 4001 Grand boulevard, and all of the forty pledged themselves toward the uplifting of the animal indigent. Splendid homes for the cats are promised. "The men tramps can take care of themselves," declared one member, "but the poor dogs and the dear, sweet cats, we must look out for them."

NORTH WISCONSIN MAKING PROGRESS

Farmer Near Eau Claire Has Raised a Fine Crop of the Georgia Variety of Peanuts.

Herds of sheep and fields of tobacco are not the only things in the pine forest region of Wisconsin. A farmer near Eau Claire has raised the past season a fine crop of the Georgia variety of peanuts, which, it is said, have been marketed in Chicago.

The land department of the Wisconsin Central road has sold 1,000 acres of land to Charles C. Plumb, director of the state agricultural station of Indiana. The property is located in the hardwood district, near Stanley and will be used for an experimental station for Prudue university. Here cattle and sheep will be bred with a view to advancing the types of the animals. The land lies adjacent to the sheep ranch of Colonel L. D. Burch of the American Sheep Breeder, which is also an experimental station. In the same county is the sheep and cattle ranch of Prof. Craig of the Agricultural college of Iowa, and the sheep ranch of Professor William L. Carlyle of the agricultural department of the state university at Madison.

Only a year or so ago Northern Wisconsin's reputation was staked on its pine logs, tan bark and iron ore. Now it is bragging about its sheep, goats, cattle, dairy farms, potato fields, tobacco, and peanut crops. Sawmills are moving back and giving way to big red barns and comfortable armhouses.

Deafness Cannot Be Cured

by local application, as they cannot reach the diseased part in the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When the tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars free.

CONSTIPATION

"I have gone 14 days at a time without a movement of the bowels, not being able to move them except by using hot water injections. Chronic constipation for seven years placed me in this terrible condition; during that time I did everything I heard of but never found any relief until I began using CASCARETS. I was rich I would give \$100.00 for each movement; it is such a relief."

NEW FRATERNAL SOCIETY

Ben Hur Court No. 1 Organized Last Evening by H. J. McGinnis

Ben Hur Court No. 1, Tribe of Ben Hur was installed at East Side Odd Fellows' hall last evening by H. J. McGinnis and Mason Summers of Vincennes, Ind., the deputy supreme chiefs, who have been in the city for several weeks in the interests of the order. This newest fraternal society started on its career in this city most auspiciously, having a charter membership of about 130 of the representative people of the city. The majority of the members were present for initiation last evening. The work of the order is especially beautiful and it was well exemplified last evening by a drill team appointed by the deputies for the purpose.

After the installation of the court and the choice of its name, the election of officers was held and resulted as follows:

Past Chief—Mrs. George Palmer.
Chief—George H. Crane.
Judge—Frank H. Snyder.

Teacher—Fred L. Clemons.

Scribe—H. D. Murdock.

Keeper of Tribute—A. E. Bingham.

Captain—Kyrle A. Morris.

Guide—George Harrington.

Keeper of Inner Gate—Leslie Barker.

Keeper of Outer Gate—George Woodruff.

Mother of Hur—Mrs. David Brown.

Sister Tirzah—Mrs. Walter Sherman.

Ben Hur—William Denniston.

The officers were declared installed in their positions and then Mr. McGinnis, who took charge of the work last evening, made a few remarks on the order.

Although not yet eight years old it is the second wealthiest fraternal reserve insurance order in the world. It is organized in twenty different states and is especially strong in Illinois, Ohio, Pennsylvania, New York and several of the western states. It has 60,000 members, has paid \$700,000 losses and has a reserve fund of \$248,000. The court organized in this city is the first court of the tribe in Wisconsin but the work will be carried on in the state and the deputies expect to secure 10,000 members in Wisconsin before the end of the year. Both ladies and gentlemen are admitted as members to the tribe and both are entitled to take out insurance.

The Tribe of Ben Hur is organized along the lines of the famous book and General Lew Wallace, author of the book, was prominent in effecting the organization and he wrote the ritual, in which some of the most beautiful parts in the book are incorporated.

At last evening's meeting it was decided to hold the charter open for thirty days and an effort will be made to double the charter membership. James A. Denniston has charge of the work for this county and H. D.

FOOTLIGHT FLASHES.

Otis Skinner as Lancelotti in Francesca Da Rimini

Lovers of comic opera are anticipating with unusual pleasure the appearance of the Grau Opera company at the Myers Grand, next Monday evening, Oct. 14, in Philip Sousa's phenomenal triumph, "El Capitan." The swinging, irresistible music of this famous comic opera is familiar to every one but the opera as a whole has only been seen in metropolitan theatres prior to this season.

The company which is to appear here is a most capable one and is under the personal management of Jules and Matt. Grau, who are said to be a worthy brother of Maurice Grau of grand opera fame. Mr. Grau promises Janeville a magnificent production of the beautiful opera, with rich costumes, talented soloists, a strong chorus, and the catchy music given the best possible setting. The company carries its own orchestra and this will add largely to the value of the production. The sale of seats opens tomorrow morning at nine o'clock at the Peoples' Drug store.

Mr. Otis Skinner will be seen in his grand revival of Boker's romantic tragedy "Francesca Da Rimini," with its wealth of scenery, superb cast and exquisite costumes. No production of recent years has received such unstinted praise. Of Mr. Skinner's interpretation of Lancelotti, nothing but the wisest words of praise have been bestowed, and the actor has undoubtedly achieved the dramatic success of his career. Nothing that Mr. Skinner has been seen in here approaches in magnitude of company, scenery or costumes, his present production. Mr. Skinner will be seen at the Myers Grand, Monday, Oct. 21.

Rip Van Winkle, the delightful vagabond, who has charmed lovers of fiction ever since Washington Irving wrote the fascinating story of his peculiar experiences, will never die. He will continue to live and be loved by the American people at least as long as the genius of Thomas Jefferson animates that famous actor or his talented and worthy son, Thomas. For many years Joseph Jefferson and Rip Van Winkle have been almost identical in the minds of the people who have seen the actor's quaint interpretation of the good-natured and careless scamp, inclined to be too fond of intoxicating beverages, and yet winning the sympathies of everyone in spite of his faults because of what he suffered at the hands of his termagant wife.

MILTON.

THE GAZETTE AGENCY,
W. W. CLARKE, Manager.

Milton, Oct. 11.—Charlotte V. Carter was born in Clymer, Chataqua county, New York, July 29, 1824. She was married to Jeremiah W. Cutting Jan. 6, 1842. In 1843 they came to Rock county, a short distance from this village. To them were born three sons and one daughter. The oldest, Amos E., died at the age of eighteen; Edwin now resides at Canon City, Colo.; Henry at Salt Lake City, Utah; Cynth is now a resident of Janesville. As a pioneer deceased did her share to develop this beautiful country, and two years of toil and anxiety came to her while her husband was at the front fighting the battles of our country. For thirteen years she has lived in widowhood in our village. The funeral services were conducted by Rev. W. J. Millar, assisted by Revs. T. W. North and A. L. McClelland.

NO FREE TRADE ISSUE.

The manufacturers of the country who favor reciprocal trade relations do not favor free trade, and it is idle for the democratic press to claim that one is identical with the other. If there is any class of people in the country who have been helped by a protective tariff, it is the manufacturers, and they possess not only the intelligence to recognize this fact, but their good judgment prompts appreciation.

There are many men of sedentary habits, and a few women who care more for health than fashion, who will continue to use the wheel as a health promoter, and while the rush is over, the wheel will not become extinct.

There are quite a number of business men in this city who would like to become members of the Twilight Club. Some forty applications are now on file. It is very natural that some of these men, who may not thoroughly understand the situation, should feel that the club is exclusive. It is due the organization to say this is not the case, and that the club, which is a business men's organization, would gladly take in every business man in the city if room could be provided for them.

The annual dues are \$4.00, this money pays for six suppers and a banquet to which the ladies are invited, at the close of the season. The hotel gives up its large dining room to the use of the club, and the present membership taxes its capacity to the limit. There is no other place where accommodations can be secured, unless a hall and caterer are engaged, and this would add so largely to the expense, that the club has not felt warranted in making the change. It is a source of regret that these conditions exist, as the disposition prevails to accommodate every business man in the city, but the facts are as stated.

The victims of the "robber tariff" have survived the shock, and appear to be happy. They wear good clothes, and a smiling face, free from wrinkles, and carry about all the symptoms of prosperity, in happy ignorance of the great loss that came to them when free trade was abolished. Better not disturb the conditions, Mr. Babcock.

The Marinette Star, the Stephenson-La Follette "organ" at Marinette, was recently burned out. The Eagle came to the rescue and the "organ" was able to run without missing an issue. Political fights seldom interfere with friendly fraternal relations. This may be news to your "Uncle Ike," who is still a novice in the publishing business.

Santiago is no longer a part of the Spanish domain, and it was generally supposed that the American navy had something to do with changing the conditions. If there is anything left of the navy when the court gets through with it, there will be cause for rejoicing.

The Methodist ministers in conference at Ripon, are again agitating the canteen question. Better turn their attention to Carrie Nation, the field is just as inviting, and a good deal more popular. If they have surplus time, John G. Wooley needs looking after. The country is full of live issues.

Howard Gould, the actor is suing for divorce, on the claim that his wife picks his pocket. Mr. Gould is establishing a bad precedent. If his example is followed, what will become of the American home?

No more class fights, says the president of Beloit college. It is frequently easier to prohibit than to prevent. It is hoped, for the good name of the Beloit school, that the president will be equal to prevention.

Sampson is tired; Schley is retired; Hobson is sorry; Dewey is married, and the country is weary of a navy engagement without a fleet.

Marinette Eagle: What would happen if Jere Murphy should get sick? The administration might actually have to call in the lieutenant governor to attend to the state's business, which the private secretary now presumes to perform.

Oshkosh Northwestern: Milwaukee yachtsmen hope to induce Sir Thomas Lipton to visit that city if he comes west. In case he does so the Milwaukeeans can introduce Sir Thomas to a class of schooners that never fail to win in any race.

Fond du Lac Reporter: Editor Frank E. Noyes of the Marinette Eagle, was able to repay his political enemies on Monday, when the printing plant of the Daily Star had been consumed by fire, by offering the unfortunate editors the use of his office so long as they might need it, in printing their paper. For this act the Hon. Uncle Ike Stephenson

should at least be grateful—as it shows that a more friendly feeling exists among editors than among politicians.

Washburn Times: Governor La Follette's whole administration has been turned to one single object, and every act of his can be traced to a devouring ambition to "boost" himself into the United States senate. And he wishes to take with him as his colleague one Isaac Stephenson, of Marinette.

Grant County Witness: Nothing, probably, brings our higher institutions into bad repute more than the hazing and class fights indulged in so frequently by students. Madison had her fiasco a few days ago and now Des Moines comes neck in neck with a scrimmage in which several were badly injured.

Fond du Lac Commonwealth: The Beloit students who coaxed a fellow student from his lodging house, divesting him of his clothing and then lashed him with whips as a matter of "discipline," are fit subjects for a reformatory rather than a Christian college. Their desire to outdo West Point has brought a disgrace on their institution which can only be effaced by prompt and vigorous measures on the part of the faculty.

Madison Journal: It would seem to be the business of the United States government to protect, to ransom, if deemed advisable, and to avenge the abducted missionary. The woman has rights abroad and it is neither feasible nor desirable that private parties should stretch a strong arm across the sea. The situation is distressing but individuals can do nothing. One of Uncle Sam's girls is in peril! To the rescue, and in anger!

Oshkosh Northwestern: The Bulgarian brigands have carried out their kidnapping plot with such skill and daring effrontery that it is evident they are guided by a master hand at the business. It is therefore strange that no one has yet suggested that it may be Pat Crowe who has transferred his operations to that country and is now giving an exhibition of a star performance in his particular line of business.

AMERICAN ECONOMIST.

That kind of tariff law is best that causes the most work and the best wages in the country.

Let the tariff remain on steel rails. It does not affect their price, they being already as low as in Free-Trade England. Why cause an industrial disturbance?

"No nation can get rich by taxing itself," said the anti-tariff folks year after year. "Down with the tariff taxes." And now that we have got rich in spite of their theories they still want to "down" the tariff. It looks more like a case of blind prejudice than of sane reasoning.

NEWS AND GOSSIP OF BADGER STATE.

The mystery which enshrouds the disappearance of Miss Lena Emma Becker from Kenosha Friday evening is still unsolved.

The annual output of the Ashland mills will still aggregate in the neighborhood of 27,000,000 feet, the largest of any city in the state.

Louis Murgraw, a half-bred Indian, who is suspected of murdering two children of the Bosley family, has been arrested and was brought to Grantsburg for preliminary hearing.

Three new rural mail delivery routes from Ellsworth have been established, which will furnish delivery service for about 3,150 persons and discontinue four fourth-class post offices.

Residents of the town of Raymond, near Racine, who have been conducting "blind pigs" and selling liquor without a license are being hunted down by John Kamper, chairman of the town board.

Conductor Philip J. Mead of Fond du Lac was struck by a freight train in the Waupaca yards Monday morning at 6 o'clock and instantly killed. The funeral was at Lake Mills, the former home of the deceased.

Near Metlin, while Express Messenger J. P. Bennett was seated in a chair in an express car last night he was accidentally shot in the left arm by one Frank Schultz of Ironwood, Mich. Schultz was badly scared. He ran away. Up to a late hour he has not been seen.

George Robinson, an alleged burglar, who has become notorious by twice escaping a posse and bloodhounds through marshes and corn field, was arrested in Sparta Monday afternoon and is now in jail. Sheriff Barber says he is not insane, but is exceedingly shrewd. He had considerable money on his person.

The story of a defendant in a divorce suit wandering for four months alone in the Northern Wisconsin wilderness with \$10,000 on his person and a dog and his rifle, for his only company, was that which was told Monday when Mrs. Emma Evelyn Daffer was granted a divorce from her husband, John Edward Daffer, in the Marinette circuit court.

Marsh and farm lands in the vicinity of Wind Lake, Racine county, are being swept by fire. Fifteen hundred acres have been burned over and 200 tons of hay consumed. Farmers turned out in large numbers and checked the ravages for the time being, but the first gale will again set it going. A number of barns and farm houses were saved by digging up the earth around them, but hay, fences and straw were lost on many farms.

John Fletcher is now representing the Janesville Wholesale Grocery Co.

SPARKS FROM THE WIRES.

Georgetown, Oct. 11.—The work of securing a jury to try Caleb Powers for alleged complicity in the Goebel assassination was resumed this morning. When the court opened three jurors were in the box.

Alba, Tex., Oct. 11.—Every business building and residence with one exception in this city was destroyed by fire last night. Loss is over one hundred thousand dollars.

Chicago, Oct. 11.—George Dolinski, the murderer of Anton Lizi, was hanged here this morning. Lizi and Dolinski married sisters. Dolinski fell in love with Mrs. Lizi and sent Mrs. Dolinski and children to Poland. Soon after her departure, Lizi was found dead on the prairie with his throat cut. Dolinski was arrested, confessed, claiming self defense.

Met With an Accident.

E. J. Bennett, the popular delivery man for the United States Express company met with an accident last night that nearly resulted seriously for him. He was climbing into the back of his delivery wagon which was wet and slippery from the rain and lost his footing and fell heavily to the ground. His right arm struck against a truck wheel and at first it was thought that his arm was broken at or above the elbow.

He was taken to Dr. Joe Whiting's office where an examination showed that no bones were broken, but that they were badly bruised and would lay him up for some time.

Woman's Foreign Missions.

At the annual meeting of the W. F. M. S. of the First M. E. church held at the church parlors Oct. 8, the following officers were re-elected: President, Mrs. Sellock; first vice president, Mrs. Sanford; second vice president, Mrs. Crawford; third vice president, Mrs. Clithero; corresponding secretary, Mrs. Knights; recording secretary, Mrs. Dow; treasurer, Miss Jessie Williams; assistant treasurer, Mrs. Bates.

Preceding the election of officers, arrangements were made for the district convention to be held in the First M. E. church on November 6 and 7.

Once Had Many Privileges.

Examination of ancient English history shows that centuries ago women in England were allowed privileges which even at this day are being fought for by their sex. For instance, Gordon, in his "Antiquities of Parliament," records the fact that ladies sat in council with the Saxon Witas. In Wighfried's great council at Beccansted in the year 894 the abbesses sat and deliberated and five of them signed decrees of that council along with the king, bishops and nobles. King Edgar's charter to the abbey of Crowland in 961 was signed by women. In the reigns of Henry III and Edward I four abbesses were summoned to parliament while in that of Edward III no less than ten peeresses received writs to take their seats.

ARE IN FAVOR OF REORGANIZATION

STOCKHOLDERS OF BADGER TELEPHONE CO. MEET HERE.

Report of the Reorganization Committee Shows Up the Details of the Business of the Company, and the Condition of Its Finances—Extensions Planned For.

About one hundred stock holders of the Badger State long distance telephone company gathered this morning at eleven o'clock at the Myers House parlors to listen to the report of the reorganization committee composed of C. W. Twining of Monroe, J. C. Murdock of Broadhead, F. W. Coon of Edgerton, H. A. Molenpah of Clinton and Attorney H. I. Sloan of Edgerton, appointed in Milwaukee, on September 12, 1901.

C. W. Twining, chairman of the committee, delivered the following report. That no record of the stock issue had been kept other than the stubs of the stock certificate book and many of the stubs had no record of to whom they were issued. At the time of making the report there were still 29 shares of stock unaccounted for.

The stock record shows that there were 791 shares of stock outstanding representing a par value of \$79,100 and the cash receipts of the company have only amounted to \$26,866.66 and that 524 shares of stock are outstanding against the company with no record of any payment for them. From the vouchers that could be obtained the financial condition of the company was given as follows: Total resources \$62,516.08; total liabilities \$69,771.36; surplus \$2,744.72. The disbursements up to September 18, 1901 amounted to \$94,601.34.

The property of the company was bonded for \$30,000, the bonds being placed at a discount of \$2,000 and are dated Feb. 1, 1901 with interest at 6 per cent, payable semi-annually. No vouchers were found by the committee showing the cost of the construction of the line with Jones & Winters, or the cost of promotion. The first six months interest due August 1, 1901, has not been paid, but the company is protected by a clause in the trust deed which does not allow foreclosure proceedings to be commenced until after six months have elapsed. After the default in the interest.

The company owns about 300 miles of pole lines and 400 miles of wire including a copper circuit from Brooklyn to Janesville. The investigation on the part of the committee shows the net earnings to be about \$425 per month and the net liability on the bonds about \$1,800 a year.

They concluded their report with the statement that the company should be reorganized, its business methods changed. The use of the pass restricted to \$18 per year to each stockholder. That an organization should be perfected that can handle the affairs of the company to the satisfaction of all of the stockholders. The resources of the company are such that with proper management the company could be put on a paying basis.

THE RIB CRUSHER WAS NOT A FARMER

A Janesville man, according to the daily newspapers, hugged his sweetheart so very, very hard that a few of her ribs became overlapped and it was necessary to call a doctor to pry them apart. But Janesville girls say that if the story is true, the lovely fellow who threw himself into the affair, with a lapped rib at every throw, must have blown in from some farm, where he got strong doing the shock act to numerous bundles of the beautiful golden maize. Beg pardon, but wouldn't that—rattle your slats, as it were.

With their retouched complexions and imported upholstery, Janesville girls will do to look at, but the farmer boys are wise. They will never commit matrimony with a frail thing with lapped ribs and a contour like a new moon. At only to catch flies for the canary. Oh, no, they know what they want and it isn't a wife with a corrugated wash-board in her side. When the farmer boy gets the cupid-itis he just accumulates the acquaintance of a red-checked "baby" whose ribs are guaranteed not to spring and who can do light laundry work and heavy needle jabbing and a few things like that. As hereinbefore mentioned the Janesville girls will do to cury-comb the pet pig or manure the cat, but they don't know farmer boys. Its our ley double distilled opinion that the man who did the squeezing lived where he could gaze at the effective work of the city stone crusher and thought he was next to a marble heart.—Milton Junction Telephone.

OFFICER PICKS UP INSANE PATIENT

William Brockmeier of Beloit, Who Escaped from Mendota a Few Days Ago, Found.

William Brockmeier, of Beloit, a patient, who had escaped from the insane asylum at Mendota a few days ago was picked up by Officer John Brown at the Northwestern passenger station this morning. Brockmeier was sitting in the station and his peculiar actions attracted the attention of the police to him. Sam P. Brown went in and questioned him and found out his name and that he had been at Mendota for two years. He said they treated him so mean up there that they could not expect anyone to board with them so he came away.

He said his father lived in Beloit and was a machinist. He said he had just come from Beloit, he went down there to see his folks, but they had moved the town away so he came back here.

Officer Brown told him to come down town with him and he would get him a ticket to Beloit. With this promise in view the officer had no trouble getting him down to the lock-up where he will be kept until the state authorities can be heard from.

He appears to be very inoffensive and acts more like an imbecile than a man that is dangerous.

THE WOOD-WORKERS HOLD MASS MEETING

A mass meeting of woodworkers of the city was held last evening at Assembly hall for the purpose of forming a local woodworkers union. The inclement weather kept many away from the meeting, but enough were present to assure the success of the organization. Mr. Jensen, president of the local painters' union, presided, and after stating the object of the meeting introduced Mr. Louis Hansen of Minneapolis, the national organizer of the woodworkers and a general organizer of the A. F. of L. He is a fluent speaker and had no trouble in convincing his audience that the principals of the union are of great benefit to the craft. Short addresses were made by R. D. Hogan, M. H. Whitaker, Chairman Jensen, H. L. Osborn, F. C. Powers and several others. A temporary organization was formed and another open meeting will be held on Monday evening when it is expected that a permanent organization will be effected.

AT WORK ON NEW FREIGHT DEPOT

Contractors Have Got to Work Again and It Will Be Pushed to Completion.

Contractors Shearer & Peters are making arrangements to resume the construction of the new Chicago, Milwaukee & St. Paul freight house which was abandoned last July when the city stopped the company from laying its tracks across Prospect avenue.

Several car loads of materials have been unloaded at the site of the building and the workmen this morning started mixing the mortar for the masons, who will begin work tomorrow morning.

The work on the building will be rushed so as to have it completed before the winter weather sets in.

The brick storm sewer running from Magnolia avenue north on Washington street to the Mole culvert, for which Shearer & Peters have had the contract for building is now about completed and will be given the finishing touches today.

This culvert will fill a long needed want in that part of the city to carry off the water which comes down through the valley every time there is a hard rain.

The contractors have been favored with good weather for their work during the last two weeks there having been no heavy rains to interfere with their work.

FOR THE CHILDREN.

To Keep Their Digestion Perfect
Nothing is so Safe and Pleasant
as Stuart's Dyspepsia Tablets.

Thousands of men and women have
found Stuart's Dyspepsia Tablets the
safest and most reliable preparation
for any form of indigestion or stom-
ach trouble.

Thousands of people who are not
sick, but are well and wish to keep

well take Stuart's Dyspepsia Tablets
after every meal to insure perfect
digestion and avoid trouble.

But it is not generally known that
these tablets are just as good and
wholesome for little folks as for
their elders.

Little children, who are pale, thin
and have no appetite, or don't grow
or thrive, should use the tablets after
eating and will derive great benefit
from them.

Mrs. G. H. Crottsley, 538 Wash-
ington street, Hoboken, New Jersey,
writes: "Stuart's Dyspepsia Tablets
just fill the bill for children as well
as for older folks. I've had the best
of luck with them. My three-year-
old girl takes them as readily as can-
dy. I have only to say 'tablets,' and
she drops everything else and runs
for them."

A Buffalo mother, a short time ago,
who despaired of the life of her babe,
was so delighted with the results
from giving the child these tablets
that she went before the notary public
of Erie Co., N. Y., and made the fol-
lowing affidavit:

Gentlemen:—Stuart's Dyspepsia
Tablets were recommended to me for
my two-months-old baby, which was
sick and puny and the doctors said
was suffering from indigestion. I
took the child to the hospital, but there
found no relief. A friend mentioned
the Stuart Tablets and I procured a
box from my druggist and used only
the large sweet lozenges in the box and
was delighted to find they were just
the thing for my baby. I feel justified
in saying that Stuart's Dyspepsia
Tablets saved my child's life.

MRS. W. T. DETILOPE.
Subscribed and sworn to before
me this 12th day of April, 1897.

HENRY KARIS,
Notary Public in and for Erie Co.,
N. Y.

For babies, no matter how young or
delicate, the tablets will accomplish
wonders in increasing flesh, appetite
and growth. Use only the large sweet
tablets in every box. Full sized
boxes are sold by all druggists for 50
cents, and no parent should neglect
the use of this safe remedy for all
stomach and bowel troubles if the
child is ailing in any way regarding
its food or assimilation.

Stuart's Dyspepsia Tablets have
been known for years as the best
preparation for all stomach troubles
whether in adults or infants.

Employees Wait for Pay Car—Many
Changes in Management.
Muncie, Ind., Oct. 11.—Not a wheel
moves on the Chicago and Southeast-
ern railroad, and the section men,
shop workmen, and telegraph opera-
tors are simply waiting for the pay-car.
At the general offices proposed changes
are announced in the management of
the road as follows: General Manager
C. M. Ward will go to the Union Pa-
cific as division superintendent. S. R.
Kramer, formerly trainmaster of the
Lake Erie at Lima, Ohio, has been ap-
pointed superintendent of road and me-
chanical departments; Traffic Manager
Adolph Stevens will be treasurer, while
Vice President Harry Crawford, Jr.,
will assume some of the obligations
of Ward's office. It is said that some
mismanagement in letting contracts
for improvements involved the com-
pany to the amount of \$50,000 for
\$30,000 worth of work.

Clayton to Stay in Office.

Mexico City, Oct. 11.—General Pow-
ell Clayton of Arkansas, United States
Ambassador here, on the 20th of Sep-
tember forwarded his resignation
through the state department at Wash-
ington to President Roosevelt, accord-
ing to custom. Ambassador Clayton
has received a reply from the state de-
partment expressing the hope of the
President that he remain in the office
he now holds. Ambassador Clayton's
retention gives general satisfaction, as
he has been a vigilant representative
of American interests in this country
and is on cordial terms with the Mex-
ican government.

Strange Fish Is Captured.

Atlantic City, N. J., Oct. 11.—Al
Schnepf and S. Y. Fitts observed a
dark object in the surf near the Big
Elephant at Fourth Atlantic City. They
found it to be a monstrous fish of some
unknown species and it required a
horse and tackle to pull it ashore. The
fish is 9 feet in length, 4 feet in cir-
cumference, and its mouth is 12 inches
across. It has three rows of saw teeth,
some of them an inch long, fish like a
walrus, and none of the old fishermen
who examined it could name it.

Ticket Brokers Fight Back.

Indianapolis, Ind., Oct. 11.—The tick-
et brokers who were recently enjoined
from dealing in Odd Fellows' rate tick-
ets have now become the aggressors
in the injunction suit, and from now
on it will be a fight to a finish between
them and the Central Passenger associ-
ation. They filed before Judge
Leathers an answer asserting that the
three companies which obtained the
injunction have no standing in court
because they are members of an asso-
ciation prohibited by the Sherman an-
ti-trust law.

Steals \$100,000 in Gems.

London, Oct. 11.—Julian Gault, the
French valet of the Marquis of An-
glesey, who was arrested on a charge
of having robbed the latter of valu-
able jewels some time ago, has con-
fessed that he stole property of the
value of \$100,000 from his employer.
He says that a woman was implicated
with him in the theft. A warrant has
been issued for her arrest.

Dumont Tests New Airship.

Paris, Oct. 11.—Santos-Dumont, the
young Brazilian aeronaut, made some
experiments with his new balloon. He
sailed over Longchamps in the airship,
which was easily guided, and returned
safely to the park of the Aero club.

KRUGER IS STILL HOPEFUL.

Second Anniversary of War Declaration Finds Faith Unshaken.
New York, Oct. 11.—A dispatch to the Times from Berlin says: The second anniversary of the declaration of war with Great Britain by the South African republic and Orange Free State was hailed by local journalists as a suitable opportunity to interview the ex-president of the Transvaal on the situation in South Africa. Mr. Kruger excused himself on the ground of his poor health, but he professed the same unalterable faith regarding the issue of the struggle.

Traveling Man Commits Suicide.

Omaha, Neb., Oct. 11.—The body of W. M. Kenyon was found on the bank at Hanscom park lake, five feet from the water's edge, and he is supposed to have committed suicide. In his pocket was found a letter addressed to a brother in Chicago, saying he was despondent and making known his intentions to take his life. Kenyon was a traveling man in the employ of a clock firm at 98 Market street, Chicago. Kenyon stopped at the best hotel in the city and has been well supplied with money.

Writer and Guide Arrested.

Denver, Colo., Oct. 11.—Ernest Seton-Thompson, the writer on wild animals, and John Goff, a Colorado guide, who accompanied President Roosevelt on his mountain lion hunt, have been arrested in Rio Blanco county for violation of the game laws of Colorado. The arrest was made by a deputy game warden. The specific charges against the men were of baiting a bear trap with venison and running dogs after deer. Both deny the charges.

King Frightened by Explosion.

Vienna, Oct. 11.—An explosion of dynamite destroyed twelve houses, killed three persons and injured fourteen others at Kruschwitz, Servia, where King Alexander and Queen Draga intended to pay a visit. The official account of the explosion says that it was caused by the carelessness of the keeper of the shop where the dynamite was stored. Their majesties have abandoned their proposed visit to the town.

To Dredge Manila Harbor.

Seattle, Wash., Oct. 11.—President Fowler of the Puget Sound Bridge and Dredging company, a Seattle corporation, has been notified that his firm has been awarded the government contract, valued at \$2,000,000, for dredging the harbor of Manila and completing the other Spanish breakwater. Two working crews will shortly be shipped to Manila from this city.

Canada May Try Next.

New York, Oct. 11.—The impression deepens that Canada may make the next try for the America's cup. A special to the Tribune quotes the Ottawa Citizen summarizing the whole story, as regards Canadians trying for the cup, in these words: "Canada's manifest destiny is to send over a yacht to lift that America's cup, which has proved too hefty for us. Canadian yachtsmen can beat Americans on the rivers and great lakes. Why should they not beat them on the ocean? It is worth trying for, and we believe the money could be easily raised to put a Canadian yacht in the race for the America's cup."
